

SHRI. SHANKERSINH VAGHELA

Hon'ble Minister of Textiles

India has unparalleled legacy of excellence in textiles from time immemorial - traditional skill of craftsmanship coupled with the country's inherent strengths in availability of all raw materials, low cost of labor, modern technology, etc., have enabled the Indian manmade textile industry to outstrip competition effortlessly in the global markets. And aiding this is the National Textile Corporation today, a Government of India enterprise with a corporate mission to be noteworthy player in the global textile industry, to provide quality fabric and yarn to consumers at reasonable prices; to integrate Hi-tech up-dated technology with old traditions and to set higher standards of quality and performance. No wonder then in the post quota scenario, India is slowly rising as a textile super power.

LARGEST UNIT IN THE TEXTILE SECTOR

NTC Ltd is the single largest Central Public Sector Enterprise in the textile sector under the Ministry of Textiles (GOI) now managing 50 mill units spread all over India. The Headquarters of the Company is at New Delhi. The downsized strength of the group is 12,490 employees. It is undergoing a major transformation on its path to revival of its mills by itself as well as through joint venture route. The annual turnover of the Company in the year 2007-08 was Rs.483.92 Crores.

Speaking to this media person, Mr K R Pillai, CMD, National Textile Corporation today said, "NTC is undergoing a transformation by implementing a revival scheme at a cost of Rs 9100 crores. The company has unleashed a massive modernisation programme when other textile players are going slow in their expansion and diversification process curtailing production. NTC has undergone financial restructuring and is poised to become net-worth positive in the coming year. To hasten this process of modernisation they have adopted the latest technology in 22 of its mills across the country."

NTC expects to complete modernization of all of its 22 mills by itself with composite units up to spinning activity by March 2009. Orders for new machinery have been placed. So far, an amount of Rs.430.00 crores has been spent on new machinery and renovation of existing machines, buildings, humidification plants and on electrification etc.

NATIONAL TEXTILE CORPORATION

GOVERNMENT OF INDIA ENTERPRISE

Weaving the Fabric of a Strong Nation

After modernisation of the second modified proposal, the capacity will go up to 9.34 lac spindles, 670 looms and 70,000 meters from earlier 6.72 lac spindles, 590 looms and 50,000 meters. NTC is projected to produce 600 lakh kg of yarn and 250 lakh meter of cloth annually with a turnover of more than Rs 931 crores in the optimum year after completion of modernisation.

STRENGTHENING INDIA'S TEXTILE TRADITION

NTC was incorporated in 1968 with the main objectives of managing the affairs of 16 sick textile mills taken over by the Government. By 1995 the number rose to 125 mills. Today NTC has 50 Mills and 100 Showrooms, out of which 22 mills are under revival by NTC itself; 19 mills are proposed to be modernised through joint ventures, out of which Strategic Partnership for 16 mills have been identified. Balance 9 mills, where most of the employees have opted for V.R.S., are now under closure.

NTC MODERNISING 22 MILLS

Thus as a part of major restructuring NTC is in the process of modernising 22 mills, including the setting up of new green field units with spinning, weaving, processing & garmenting activities.

NTC PARTNERS WITH THE BEST IN THE TEXTILE INDUSTRY FOR ITS 16 UNITS

NTC has got into strategic partnerships with leaders in the industry for the revival of 16 of its mills, namely two mills with Pantaloons; two mills with Alok Industries; one mill with Bhaskar Group; eleven mills with three Companies of the Krishna Group and three more mills to be taken up for revival on JV route at Udaipur, Bangalore & Ahmedabad. Noted consultant M/s Deloitte Touche Tohmatsu India Pvt. Ltd. is assisting in the JV process.
