

SILICON VALLEY,

The New Vista of I.T. Education...

Mr. Pramod Gaikwad

In the new era of development and progress of Information Technology, Nashik is the only city to be at the forefront after Mumbai and Pune. Nashik had taken the first step of introducing I.T. education in the guise of 'Silicon Valley'. Heralding a new

Mr. Nilesh Gaikwad

dawn and carrying out this daring feat was not the work of some rich businessman or a politician or any renowned Educational Institution, but it was the brainwork of two enterprising, dynamic brother's duo - Mr. Pramod and Mr. Nilesh Gaikwad! Hailing from a small village of Nashik district, these two young brothers are the sons of a primary school teacher couple. They recognized and realized the need of the hour and the importance of I.T. in today's age. So they decided to pioneer, not only Mumbai & Pune, but the rest of Maharashtra too, in the field of I.T.

In a span of just 10 years. Silicon Valley has been recognized as a leading Institute all over Maharashtra imparting Computer Hardware and Networking education. Along with Nashik, it has also spread itself in Pune, Mumbai, Aurangabad, Baramati and Kolhapur. The process of opening branches in Nagpur, Amravati, Akola, Panaji (Goa), Jalgaon, Dhule, and Ahmednagar is going on.

Keeping in mind the ever changing trends in the field of computer technology, Silicon Valley has incorporated the most modern & flexible syllabi in its Hardware & Networking Engineering course. It has also designed its own "SCNA" (Silicon Certified Network Administrator) programme. It includes all the important hardware networking topics, at par with the International Standards. And for the last few years thousands of students, who have successfully

completed the SCNA diploma have made bright careers in jobs and businesses.

In a short span of time Silicon Valley has been recognized as the only institute imparting Information Technology education at a very fast pace. There is no doubt that in the near future Silicon Valley will be recognized as a foremost I.T. educational hub on an International Level!
