Reliance Industries Limited

Supported by:  
National Knowledge Commission,  
Government of India

In Collaboration with:  
National Institute of Science Technology and  
Development Studies,  
Council of Scientific and Industrial Research

The **International Conference on Technology Policy and Innovation (ICTPI)**, held annually in different countries brings together leading representatives of academic, business, government and other relevant sectors worldwide to present, discuss and assess current and future issues of critical importance for the use of science and technology to foster socio-economic and shared prosperity at home and abroad.

**ICTPI 2008 Theme**

The theme 'Frontiers of Knowledge & Innovation: Blending Emerging Technologies with Inclusive Development' recognizes that: -

- **Innovations** to generate wealth and create social impact go beyond 'technical innovations' and ideas of individuals to planning and implementation of new ideas, processes and systems across the entire value chain of organizations and
- **Development** has to be inclusive to address core issues of Poverty, Employment, Health Care, Education, Food, Clean Energy, Gender Equity, Sustainable Development, Globally Connected Industry, Agriculture and Services, Good Governance grounded in local participative, traditional knowledge and empowerment contexts.

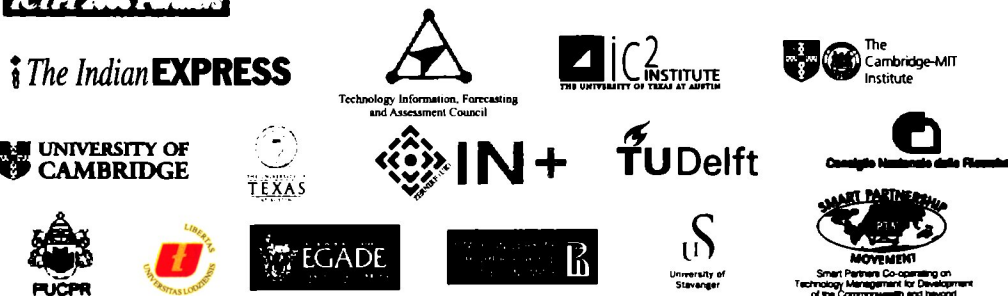

**ICTPI 2008 Topics**

The 11<sup>th</sup> ICTPI will discuss the Role of Knowledge, Technology and Innovation to meet the challenges of Inclusive Development under the following topics: -

- Typology & Mapping of Innovations (innovations in governance, education, business, health services, technology), Indices of Innovations
- National Innovation Systems for Inclusive Development
- Leapfrogging Strategy for Inclusive Development using Emerging Technologies - Nanotechnology, Biotechnology, Information & Communication Technology (ICT), Space Technology, Clean Energy Technologies
- Designing Structures & Facilitators of Innovations - High Technology Clusters, Globalisation of R&D, Open Innovation Systems, Role of Diaspora and Brain Circulation Networks
- Formal & Informal Innovations - Traditional and Modern technologies, IPR
- Inclusive Development & Talent Creation System - Reinventing Universities for the 21st Century

Papers and presentations on innovative approaches that have demonstrated significant impact on addressing the problems of inclusive development are especially welcome.
