

SRM University is one of the largest universities in India with four decades in quality education with international standards. With 36 eminent members from leading universities on their international advisory board, it includes several full-time international faculty members who bring to the students a unique learning experience.

Interestingly, SRM University's students comprise of almost 80% from outside Tamil Nadu, with many international students from Canada, France China and the UAE. In 2008, 104 students were sponsored to semester programs at MIT, Carnegie Melon, IC Davis, Wisconsin and Western Australia, Again in the same year, 1410 students were recruited by MNCs like TCS Wipro, Cognizant Infosys, Microsoft, Oracle, Citi and ICICI. The University has facilitated scholarships upto Rs. 6.3 crores for student achievers.

Says P. Sathyanarayanan, Vice Chancellor, "We want to raise our international portfolio and research. We are casting our net wider and actively looking for international faculty for the same. We will take good people whenever we find them."

SRM University is emerging as a leading world-class institution that creates and disseminates knowledge. "We uphold the highest standards for instruction in medicine and health sciences, engineering and technology, management and science and humanities. Along with academic excellence our curricula emphasize integrity and cultural sensitivity so that our graduates may best serve the nation and the world," concludes Pachamuthu.

Semester Abroad Program (SAP):
SRM students at MIT

In the quest for higher and better education, especially in the field of engineering, institutions like SRM University have been playing a very crucial role in shaping the destinies of scores of students, as well as the future of a fast developing world.

Industrial Connection

Cordial ties with industry and government agencies result in consultancies, student projects and visits. Industrial contacts include National Highways, Livestock Research Center, Freyssinet, Stewols & Co, Hindustan Lever Limited, Simplex & Co, Saraswathi Precast Prefab, Madhucon Projects and Vigro ploymers.

Experts from industry are regularly invited to present lectures and to interact with students and faculty. The department is keen participant in various societies and institutes, such as the Construction Industry Development Council, the Institute for steel Development and the Growth and the Construction Management Society.

I feel great to share with you that Agrim and I have started working on project Mars Gravity-a five week space mission to observe the effect of micro gravity on mammals. Having spent a semester at MIT, this was a once in-a lifetime opportunity of getting hands-on experience on project backed by NASA.

-Sahil Maheswari
MIT, USA.

I am excited that I got selected on campus by Hewlett Packard. All my classmates are placed with several leading companies-TCS, CTS, HCL, I-Flex, I-Gate, Tech Mahindra and others. We are again going to be together at Bangalore. This makes SRM a great place.

-Vinitha s.
ECE, 7th Semester.

On campus, I am struck by the rapport between students, faculty and staff. A warm spirit of welcome, a strong desire to assist and a mutual respect of diversity pervade SRM university.

-Dr. Nickolai kharchenko,
School of Mechanical Engineering
