

Ayurveda uncovers the secret of a fit body and an active mind. Dabur Chyawanprash.

Androoni Shakti – Body's Shield

A healthy 'YOU' is a combination of a fit body and an active mind. To achieve both, the body needs a strong immune system and a sharp mind. A strong immune system gives protection against cough, cold and minor respiratory infections. An active mind consists of the ability to concentrate and retain information.

This very combination known as 'androoni shakti', comes from ingredients such as Amla, Draksha, Pippali, Ashvagandha and Guduchi to name a few. They act as a shield against everyday enemies. Dabur Chyawanprash is the best source of androoni shakti.

Power of Dabur Chyawanprash now clinically proven

Trials conducted at renowned institutes in India reconfirm -

- Consumption of Dabur Chyawanprash decreases the levels of IgE by 49.92%, decreases C3 levels by 54.91% and ESR by 25.99%. -Asthma Chest & Allergy centre, Delhi.

- Use of Dabur Chyawanprash helps in reducing cough, breathlessness and sinusitis. -Asthma Chest & Allergy centre, Delhi.

Two spoons of 'androoni shakti'

- This 4000 year old 'elixir of life' is packed with 47 ayurvedic ingredients such as Amla, Ashvagandha, Pippali and Guduchi that come together to build resistance and give strength to the body from within to fight its modern day enemies.

- Chyawanprash has been mentioned in the Charak Samhita written by the father of ayurveda – Charak. **He knew years ago what science knows now.**
