

my own personal poll with a wide range of women friends whom I know could be depended on to tell me the truth. And tell me they did—a free ranging choice of men on the menu—my favourite a single hotel industry professional who said she steamed up on Vladimir Putin, bringing a whole new meaning to the title Vlad the Impaler, to a socialite who yearned for the long dead River Phoenix. The definitive winners in my poll were John Abraham and George Clooney. What does that mean? Do Indian girls fantasise only about unmarried men?

On the other hand, Indian men seem to have very active fantasy lives and the incomparable Aishwarya Rai Bachchan still manages to corner the market on fantasy even post marriage. So does the fair and lovely Katrina Kaif. But Indian men can happily fantasise about sex even while not getting much action, and most seem to spend their lives in a torpor of desire. Yet, the modern Indian woman has a lot of catching up to do if

she wants to be like the women in *Kama Sutra*. She is still frowned upon if she admits to enjoying multiple orgasms with multiple partners.

Worldwide, kink is now mainstream: Earlier this year, Formula One chief Max Mosley won a case against the British tabloid, *News of the World*, for alleging he was a closet Nazi when all he had done, the poor man, was hire several prostitutes to dress up as prison guards and prisoners and whip him while he yelled at them in German. In April, CNN's Richard Quest was arrested in Central Park, New York, with drugs in his pocket, a rope around his neck that was tied to his genitals, and a sex toy in his shoe. As an emerging superpower, surely we cannot afford

to be left behind, and we must make constant notes of all relevant performance statistics. Sex surveys are fascinating; they're like the IPL, but with less advertising and more balls. As we continue, every year, to metaphorically lift up our proud nation's dhotis and saris and take status reports, I'm sure we will always find things guaranteed to enlighten, entertain and amuse.
