For the 2,661 respondents of the total of 5,353 who have watched pornography. Rest don't know/can't say. All figures in per cent

While 20 per cent of porn-viewing men in Hyderabad admit to making a home porn video, it is the women in Bangalore who show the way at 25 per cent.

wide-eyed children and yet kissing onscreen can still make news, it's a definition that is a work in progress. Consider this as well. If there is porn being consumed in air-conditioned homes as a libido-enhancer, it is also being produced in dank rooms under coercion as a terrorism-finance, if reports about north-eastern rebels forcing women to participate in them are true. Both Indian men and women prefer the desi girl and desi boy in pornography, as they do celebrities. But the danger is the more they objectify each other, the less connected they are emotionally. Pushing the limits of their sexual play is all very well as long as it remains a sport. Or as Nair says, an eclectic form of bird watching, pornithology.
