

Calcarea fluorica	Calcarea phosphorica	Calcarea sulphurica	Ferrum phosphorica
Kali muriaticum	Kali phosphorica	Kali sulphuricum	Magnesium phosphorica
Natrum muriaticum	Natrum phosphoricum	Natrum sulphuricum	Silicea

According to the theory of Biochemistry, health is dependent upon the quantity and equalisation of the organic and inorganic constituents in the body. The body is merely a collection of cells, each cell being composed of the organic and inorganic matter. It is the presence of the inorganic matter, which though in minute quantity, unites with and activates the organic element, thus causing the cell to function in a normal manner. The disease is not a thing animate or inanimate, but a condition due to lack of some organic constituents of the system. Biochemistry seeks to ascertain what is lacking and confirms what is needed to replenish. Biochemistry is science, not experimentalism. There is no mystery and miracle about it, as it follows all natural laws. **This scientific fact has formed the basis for the treatment with Biochemics and Bio-combinations.**

These Biochemic salts stimulate the body's cells to reabsorb the necessary inorganic salts from the food, so that inner balance is maintained. In Biochemic therapy a single tissue salt (one medicine) is not limited to one indication only. One medicine / remedy can be given for various indications / problems.

The 12 Biochemic salts cover various tissues to treat different ailments. With the changing lifestyles and disease patterns the practitioners of the Homoeopathic system started giving more than one salt in combination if a person was found to have symptoms, which are not fully covered by a single salt.

Many years of clinical experience and observed results led to the acceptance and widespread use of those combined remedies (Bio-combinations) for use in specified ailments. Based on the tissue affinity and symptoms, the cell salts have been combined in 28 different combinations consisting of 3 to 5 Biochemic Salts. Each Biochemic combination works for a specific set of symptoms or a specific condition like

Coryza, Cough, Fever, Constipation, Diarrhoea, Dentition etc.

These 28 Bio-combinations numbered 1 to 28 are being used in the same combination worldwide and is accepted by the medical fraternity. Since every combination is specified for a set of disease conditions, it is easily identifiable by any consumer.

Alphabetical list of ailments and Bio-combination (identified by a particular number for treatment of the ailment)

Ailment	No.	Ailment	No.
Anaemia	1	Irregular Periods	15
Asthmatic Conditions	2	Nervous Exhaustion	16
Colic	3	Piles	17
Constipation	4	Pyorrhoea	18
Coryza (Nasal Discharge)	5	Joint and Muscle Pain	19
Cough, Cold, and Catarrh	6	Skin Diseases	20
High Blood Sugar	7	Teething Troubles	21
Diarrhoea	8	Scrofula (Enlarged Glands)	22
Dysentery	9	Toothache	23
Enlarged Tonsils	10	Debility and Exhaustion	24
Pyrexia (High Body Temperature)	11	Acidity, Flatulence, Indigestion	25
Headache	12	Easy Parturition (Easy Delivery)	26
Leucorrhoea (Abnormal Vaginal Discharge)	13	Lack of Vitality	27
Measles	14	Tonic	28

On investigation of the prominent players in the field of Homoeopathy, it was found that **SBL** is the leader in the industry. SBL was established in 1983 in technical and financial collaboration with Boiron Laboratory of France, the world's number 1 company in the field of Homoeopathy.

SBL has three state-of-the-art manufacturing facilities located at Sahibabad (near Delhi), Jaipur and Haridwar. It not only leads in the manufacture and sale of the entire range of Biochemic and Bio-combinations, but is also considered the leader in other product range of Homoeopathy. Today, SBL is the largest Homoeopathic company in Asia and 3rd in the world (after Boiron Laboratory of France and Willmar Schwabe of Germany).
