

I DIDN'T LET DIABETES STOP ME FROM WINNING

Kyra Shroff

Junior National Tennis Champion 2008
On insulin since 2004

When I was diagnosed with diabetes and started using insulin a few years ago, my biggest fear was that I would have to stop playing tennis - the true love of my life.

I didn't choose to have diabetes. But I chose to fight it.

Once I decided to rise to the challenge, everything simply fell into place. My doctor introduced me to the concept of regular self monitoring of blood glucose with OneTouch. Its accurate readings gave him the confidence to adjust my medication and diet better...and helped me stay fighting fit. Thanks to OneTouch monitoring, I'm confident of winning many more games, both in tennis and in life.

Keep winning

If diabetes could not stop Kyra from living her dreams, why should your story be any different? Please talk to your doctor about how OneTouch can help you win over diabetes. For more information you can also email us at onetouch@its.jnj.com or call 1-800-22-5544 (Toll free) or 022-30845544

For a free diabetes education booklet, SMS "OneTouch" to 57333.
