

FENESTA
WINDOWS.
BECAUSE NOISE
SHOULD BE SEEN.
NOT HEARD.

In homes with Fenesta windows, noise is a quiet visual experience. The windows block everything the environment throws at you. Noise. Dust. Pollution. Wind. Rain.

The double sealing reduces street noise by as much as 40 decibels. Air-conditioning costs come down by as much as 20%.

Engineered for India's unique climatic conditions using the best of European technologies, Fenesta is just what a window should be: sound proof, monsoon proof, dust proof; resistant to ultra-violet rays and high velocity winds; sizes that stretch from the floor to the ceiling; and the designs of today that last forever.

Supported by research and development infrastructure, seven factories, the experience of 300,000 installations and a national team of window experts, Fenesta promises to change your home beyond recognition. Just call the numbers on your right for 360° service wherever you may be.
