

ALTERNATIVE THINKING ABOUT ASSURANCE:

Nobody ever got fired for buying a dependable server.

There is a certain amount of confidence that comes with the HP ProLiant DL385 G5 Server, featuring efficient Quad-Core AMD Opteron™ Processors. Not just because it is the best-selling server of its kind* with time-tested features like Pre-Failure Notification and Remote Access Management, it unfailingly delivers on the promise of never letting I.T. down.

Technology for better business outcomes.
